WORK EXPERIENCE

Clinical Data Analyst

Novella Clinical

📅 December 2025 - current

📍 Morrisville, NC

- Validated study data in Medidata Rave, resolving query trends that improved case report form completion accuracy by 6.7%.
- Consolidated review findings into sponsor-facing summaries, *cutting manual reconciliation work by 12 hours* per cycle.
- Addressed recurring discrepancies in lab and patient-status data to ensure timely database reviews for ongoing clinical trials.

Clinical Data Coordinator

UNC Health Care System

📅 June 2024 - November 2025

📍 Chapel Hill, NC

- Ensured accurate data entry and cross-verified documentation using OpenClinica for 19 active studies to maintain consistent patient and study records.
- Reconciled intake and monitoring documentation in Medidata CTMS, *reducing open item backlog by 8.3 points* during quarterly review.
- Compiled audit support materials and status logs that accelerated investigator response times by 18% during an ICH-GCP compliance review.

Clinical Data Analyst Intern

PRA Health Sciences

📅 January 2024 - May 2024

📍 Raleigh, NC

- Reviewed trial activity and milestone records in Bioclinica CTMS to identify late updates that compromised real-time tracking of trial progress, *enabling prompt corrective measures*.
- Compiled discrepancy findings in Medidata Rave into detailed reports, enabling precise sponsor deliverables by highlighting key data discrepancies.
- Documented validation steps and issue patterns across 4 therapeutic areas, ensuring uniform validation processes for seamless intern-supported reviews.
